## INTRODUCTION

The PROTOTYPE project (Preventing School-Based Bullying by Creating Early Prevention Programme, Project No. 2021-1-PL01-KA220-SCH-000032708) multiplier event was held in Finland on the 3rd of May 2024, in the Brinkkala Mansion in Turku. There were 20 participants present in total. The event aimed to present the project, foster guided discussion between participants, receive participant feedback, and promote the project's results, such as the PR4- Games.

### Organizers

The event was organized by Olemisen Balanssia ry.

### Preparations

The stakeholders were notified about the event. Due to the event's duration, which spanned across one session, attendees were provided with a coffee break. In total, 20 participants were present in the multiplier event.

### Event Overview

The dissemination event consisted of comprehensive presentations on the Prototype project. The information related to the project was shared, with a detailed examination of each project result, followed by practical applications. Additionally, participants explored the prevention plan created on the Genially platform for the Prototype project and the gamification output.

### Session Structure

The dissemination event was in the afternoon (16:00-z.30). 20 participants actively participated.

### Conclusion

The Prototype project dissemination event was successfully conducted under the supervision of Anna Vehanen. The event provided participants with valuable insights into the project's results, along with practical applications. The attracted the participation of 20 participants, facilitating meaningful discussions and knowledge exchange among the attendees.

## AGENDA

<b>16.00-16.30 Introduction of the project by Anna Vehanen</b>
<b>16.30-17.00 Introduction of Bullying Prevention programme</b>
<b>17.00-17.15 Coffee Break</b>
<b>17.15-18.30 Introduction of project results &amp; the games</b>

Co-funded by  
the European Union

## Session:

### **16.00-16.30 Project Introduction**

The session began with a project introduction providing an in-depth introduction to the Prototype project. The project's goals, objectives, and the pedagogies of the Prototype project were introduced to the partners.

### **16.30-17.00 Introduction of Introduction of Bullying Prevention programme**

The Bullying Prevention program and the lesson plans were introduced to the participants. The participants were guided through the program's structure, learning objectives, and interactive components designed to enhance their skills and knowledge of bullying.

### **17.00-17.15 Coffee Break**

### **17.15-18.30 Introduction of project results & the games**

The session continued with an overview of the project results developed as part of the Prototype project. This session focused on the prevention plan interactive programme of the Prototype project. Participants were guided through the enrolment process and highlighted the continuous support available through the Genially platform.
